Assessor's Message

I want to introduce to you our new annual report developed to better communicate assessment information to the tax districts we serve and the general public. I hope you find the report useful in providing a better understanding of property taxes in Clark County.

2013 Assessments saw a significant increase in home values with the typical increase in home values between 10 and 12%. The increase in values was welcome as many tax rates in 2013 had hit their statutory maximum. The higher values leading to a lower tax rate gave the taxing districts more flexibility in their 2014 budget planning.

Residential new construction also increased and was at the highest level since the housing bust. The only historic high in new construction was in multi-family construction. The rest were strong but not near the pre-housing bust levels.

The assessment notices were delivered on schedule and most taxing districts had the information required for their budget resolutions in mid-September.

Despite an increase in assessed values, the number of appeals was historically low. The low number of appeals combined with new internal processes allowed the appraisal staff to quickly work through the appeals and get to work in their re-valuation area in a timely manner. In 2013, the residential revaluation area was the Camas-Washougal area.

The greatest impact to property taxes in 2014 is due to a number of school districts passing M&O levies and the County Park Funds ability to collect their full requested levy which they were not able to collect in 2013, due to the County hitting aggregate rate maximums in some areas.

In the Assessor's office we have a culture of continuous improvement. We welcome your feedback to help make this report more helpful. Please contact us if there is information you'd like to see in future reports.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter Van Nortwick". The signature is fluid and cursive, with a distinct "P" at the beginning.

Peter Van Nortwick

Explanation of Property Taxes

At the core of the property tax system in Washington is the following formula:

$$\begin{array}{l} \text{Assessed Value} \\ \hline 1,000 \end{array} \quad \times \quad \text{Levy Rate} \quad = \quad \text{Tax Amount}$$

Each year, the Assessor's Office revalues the properties in the county to determine their Assessed Value. The revaluation process involves a physical inspection of each property at least once every six years. In the years in between physical inspections, statistical models are used to revalue properties. This Assessed Value then becomes part of the property tax calculation formula.

The Assessor's Office also calculates the levy rate portion of the formula. Setting the levy rate is the last step in the process and depends on the setting of Assessed Values for properties as well as receiving the Tax Amounts from each of the tax districts. After receiving the assessed values and tax amounts, the office sets the Levy Rate to hit the correct Tax Amount. This step also involves tracking a complex set of levy limits written into Washington law.

It's important to note that Assessed Values are only part of the equation used to establish the levy rate. Assessed Values moving up or down do not necessarily translate into a corresponding opposite movement in the Levy Rate; the Tax Amounts, established by the budgets of the various tax districts (such as fire districts, school districts, library districts, and more), also play a part in the determination of the Levy Rate.

The tax districts in the county set the dollar amount they need to levy each year to fund their operations and provide services to the taxpayers. This becomes the Levy amount. The property tax system in Washington is budget based, meaning that only enough taxes are collected to reach the amount in a district's budget (the Tax Amount).

There is a lot of careful work involved in determining each portion of the property tax formula every year. The Assessor's Office constantly strives to administer all of its responsibilities equitably and in conformance with state laws.

Current Use Program Information

Under the Open Space Taxation and Designated Forest Land Acts, the Washington State Constitution provides for certain properties to be assessed on the basis of their current use, rather than the standard of highest and best use. Owners of farm and agricultural, open space timber, or designated forest land may qualify for a reduced assessment if they enroll their properties in the program and continue to meet the program requirements. When property is removed from classification and returned to assessment based on the highest and best use, additional tax, interest, and penalties or compensating tax may apply. Properties enrolled in the Designated Forest Land program are governed by RCW Chapter 84.33. Properties enrolled in the Open Space, Timber, and Farm & Agricultural Land program are governed by RCW Chapter 84.34.

Agricultural lands are devoted primarily to the production of livestock or agricultural products for commercial use. The current use value of agricultural land is based upon its productive capacity.

Open Space lands include properties whose present use enhances scenic, recreational, natural, or historic resources. The current use value of open space is a percentage of the highest and best use value, determined on a case-by-case basis by a public benefit rating system that is part of Clark County's Open Space Plan.

Timber Land is property 5 acres or more that is devoted primarily to the growth and commercial harvest of forest crops. The current use value is set by the Department of Revenue on a per-acre basis by soil type.

Forest Land is property 20 acres or more that is devoted primarily to the growth and commercial harvest of forest crops. The current use value is determined in the same manner as timber land.

Senior Citizen & Disabled Person Regular Levy Exemption RCW 84.36.381

Tax relief for qualifying senior citizens and disabled persons is based upon the applicant's disposable income:

Income up to \$25,000	Exemption from voted levies <u>and</u> either a \$60,000 or 60% reduction in assessed value, whichever is greater.
Income of \$25,001 - \$30,000	Exempt from voted levies <u>and</u> either a \$50,000 or a 35% reduction in assessed value (not to exceed \$70,000), whichever is greater.
Income of \$30,001 - \$35,000	Exempt from voted levies only.

"Income" is the combined disposable income of all co-tenants (those individuals who live or have an ownership interest in the property). It includes, for example, social security, retirement, disability pension, interest, capital gains, and wages. It does not include non-reimbursed costs for prescription drugs, in-home care, nursing-home expenses, or Medicare premiums.

Applicants must be at least 61 years old as of December 31 of the year prior to the exemption or disabled from employment according to either the Social Security definition of disability or as a veteran from the United States military with a 100% service connected disabled. Verification is required for the disability exemption. Only one spouse is required to be 61 or older or disabled. However, if the qualifying spouse dies, the remaining spouse must be 57 or older to continue receiving the exemption.

The valuation of property subject to the exemption is frozen as of the date that the taxpayer first became eligible for the reduction.

County-Wide Impact of the Senior and Disabled Persons Exemption

Income Level	No. of Participants	Market Value	Frozen Value	Portion of Frozen Value Exempt from Regular Levies
\$25,000 or less	3,851	599,719,648	487,670,979	307,092,909
\$25,001-\$30,000	1,271	220,206,878	188,564,356	69,269,127
\$30,001-\$35,000	1,054	188,808,340	166,784,747	0
Total	6,176	1,008,734,866	843,020,082	376,362,036

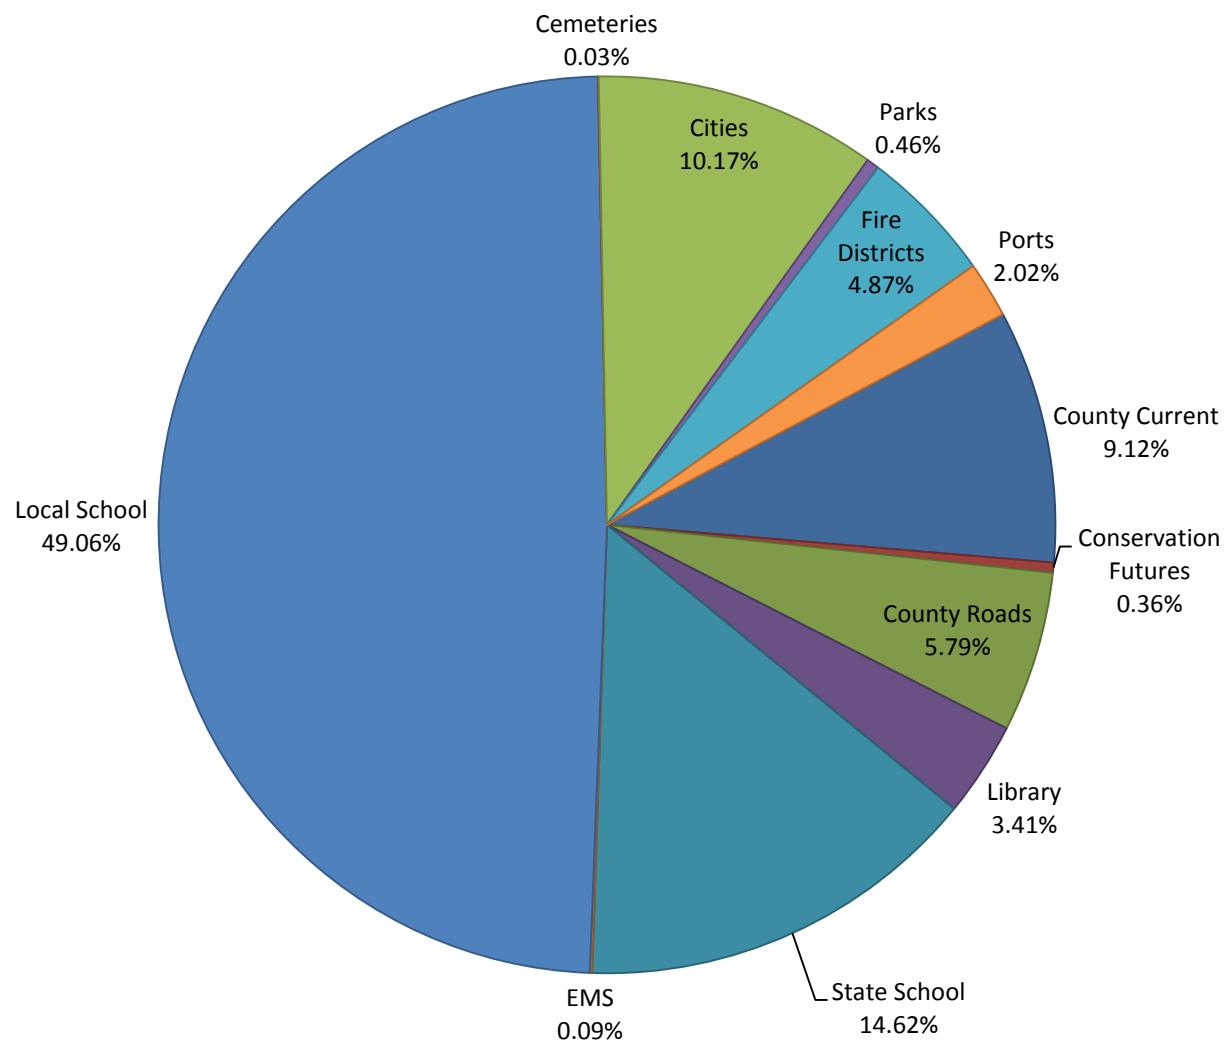

Deferral Programs

Senior Citizen & Disabled Persons Deferral Program - If you are at least 60 years old or disabled and your income is \$40,000 or less; you may qualify for this property tax deferral program. Unlike the exemption program, this program is not a reduction of your taxes but a postponement of taxes. If qualified, the State of Washington will pay the taxes on your behalf. When you sell your home or die, those taxes become due and payable from your estate, or at the time of ownership transfer.

Limited Income Property Tax Deferral – This option has no age or disability requirement. If your income is \$57,000 or less, you may qualify for this property tax deferral program. In addition to other qualifying conditions, you must have owned your home for more than 5 years to be eligible for this program. However, if you meet all of the qualifications, you can defer up to 50 percent of your annual taxes. The first half of your taxes, due in April, must be paid before you can apply for deferral of your 2nd installment due in October. The State of Washington would pay the 2nd half taxes on your behalf and lien your property similar to the Senior Citizen & Disabled Persons Deferral program.
